IF IT WILL HELP ALBERTA THE BULLETIN IS FOR IT.

THURSDAY, SEPTEMBER 8, 1927

A CAUSE TO HELP
. The work of the Gyro Club in equipping playgrounds for the children of the city is well
known and very generally appreciated. The annual carriaty law which funds for this purpose
are raised is now in progress. It affords to the
public a pleasant way of contributing the a cuse
which commends itself to the approval of anyone
who has watched the tittle folks endoying themselives at one of the playerounds: and who refleets upon the difference is end dollars' worth
of equipment makes to them.

COMPETITORS GET INTO ACTION

The mine operators and miners in Illinois. Indiana, Ohio and western Fennenylvania, have settled their differences, and are starting to get out coal again. This means that the U.S. market will be taken care of before winter strikes, and that the Ohio and Pennsylvania mines will be read to food on the odd on

ther artives.

If there is to be any rate on Alberta coal which with make it saleable in Ondarie at competitive prices, the asomer it is announced the better. For the outlook is that if any coal from this province is to be add there next winter it will have to be soid in competition, not in a market inviting no atternative source of anyphy.

The trex ample of new wheat to reach the Wheat Poel office came from strong, graded No. 1. Northern, and weighted is pounds to the measured bushel. If weather conditions continue as feavorable as they have been, remunicably leave proportion of the time the need went into the remulation of the time the need went into the remulation leave. The strong duratile builders legant to him the weather was about as favorable for the production of a heavy crop of hish grade wheat as it could have been.

The grade is no importance.

DRING ON THE WAR.

The interests nanociated with United States enthusys, cannot lake shipping lines and Attactive ports do not intend that Canadian when the ports do not intend that Canadian ports if there can help 10. To prevent that diversion of Canadian tends from their war, poster to Canadian tends (large are threat-color, to meet the new rates on the National Canadian than of they are threat-color, to meet the new rates on the National Canadian tends in religible charges were U. S. times and waterways.

That is along as strong were

realing for meld the set of 18th of height charges.

That is about as strong proof as could be designed that the set of the process of the continuous of the set of the set

the deliber with be distributed among the farmers on the prairies.

It is suggested that the Dominion Government and fight a "rate war" with the U.S. transportation interests: may meet a reduction in U.S. rates with a further cut in the rates on the Transportation interests: may meet a reduction in U.S. rates with a further cut in the rates on the Transportation interests: may meet a reduction in U.S. rates with a further cut in the rates on the Transportation interests and the Canadian Atlantic perrice. Whether that follows will depend upon what the traffic would keep, and to the allipping and part interests of Quebes and other Canadian Atlantic coast points.

Canada in this matter seems to be in the fortune position of being attle to protect its own interests, and can put it up to the U.S. shipping concerns to stand the expense of discreting our wheat traffic in future if they wan it at the price.

price.

If the latter do not cut rates, the wheat will ge uver the Transcontinental, the National ratius ways and Atlantic ports will resp the benefit, and the portier farmer will pucket the reduction in rates that has been made.

If the U. S. reads cut rates and capture instruction, the Transcontinental will have just as much freight to hauf as if has bace, the National ratius from the property of the property

rallways will have no less revenue, the Atlantic ports will be no worse off than they have been, and the prairie farmer will profit further by whatever margin the U.S. roads cut their rates below the new schedule ordered on the Trans-

Just Plain Foods

in attractive form

To promote health in your family serve plain foods. Use an abundance of uncooked fruits and vegetables • • • and whole milk for little ones. But children often refuse milk from glass or cup. Pour it over Quaker Puffed Wheat. These fairy grains intrigue any child. They induce it to take one of nature's simplest and best foods, whole milk.

milk.

Puffed Wheat is the whole grain puffed to eight times normal size. Only the most perfect grains respond to the terrific hear and the explosion of the grain. Every food cell is thoroughly cooked and broken down. All mineral saits and bran are retained.

Your children eat Puffed Wheat because it is good * * * serve it because it is so good for the

Quaker Puffed Rice, also

Whole rice kernels, steam exploded to 8 times normal size, like the Puffed Wheat. Dainty morsels, light and inviting, whenever a light refreshment is desired.

What the Critics Say:

of the Screen!

STARTS TODAY

What une critics only:
"Chang' undoubtedly belongs in the category of great pictures, if only for
the kick you get from it. This may not be a test of art, but it certainly is of
entertainment. Nothing in the cinema line to date can beat this film for
novelty, sustained interest and exciting incident. Mething can approach to
for surprise. If you are an old picture fan and think you know what the
movies can do, go see "Chang." Go anyway.
